

## Vibrato

1. Shift up to 4th position so that the palm of your hand is resting on the shoulder of the violin.
2. Keep the thumb pad in contact with the neck of the violin and keep the base of the first finger knuckle away from the neck of the violin slightly.
3. ROLL the finger backward (keeping the 1st finger tip knuckle flexible)
4. ROLL the finger up into the previous position with the finger curved and all knuckles bent.
5. Follow the notation below starting with a metronome marking of A Quarter Note = 40 and increase the speed gradually.
